| LED Type | : SMD |
| Aspect Ratio | : 16:9 |
| Weight | : 12 KG/ SQM |
| Warranty | : 2 years |

ADVANTAGES OF LED SCREEN

- High life span of 1,00,000 hours
- Compatible Gray-scale for color depth
- High Brightness (LED:1200 cmd vs LCD:400 cmd)
- Better Contrast and color quality for a sharper image

Higher Definition Image Quality

It perfectly solves the problem of inconsistent brightness and chromaticity among LED pixels, eliminates mottled and mosaic phenomena during display, and has a uniformity of more than 97%. With high contrast, refresh, gray output, and the screen display is more high-definition and delicate.

Wide Viewing Angle

170 ° super large viewing angle, the image display area will be larger, viewing in all directions will be more comfortable.
